Skamania County Community Development Department – Boundary Line Adjustment
Updated as of December 5, 2012
BOUNDARY LINE ADJUSTMENT PROCEDURE & INFORMATIONAL PACKET

What is Boundary Line Adjustment
A Boundary Line Adjustment is a legal process to move a property line or lines between two adjacent properties. A Boundary Line Adjustment does not create any new lots, it just moves property lines.

Lot Sizes
No parcel that meets or exceeds the minimum lot size for its zone designation may be adjusted so that it would become less than the minimum lot size. If a parcel is already below the minimum lot size (non-conforming) it can be adjusted so that it becomes smaller, but cannot result in a parcel that would be unbuildable.

Review
Staff will review the proposed lot lines and the location of existing septic and drainfield areas (if applicable).

Contact the Skamania County Treasurer for property tax information.

Contact the Skamania County Auditor for document recording requirements.

The Process
1. First, you must get the legal descriptions of the new parcels. You may wish to contact a surveyor to assist in writing the new legal descriptions. You can write up the deeds that transfer ownership of the property yourself or have an attorney help you. Having the property surveyed and the survey recorded is not a requirement, and does not establish the boundary line adjustment, but you may want to have this done.
2. Bring the legal descriptions and deeds to transfer the ownership first to the Assessor’s Office to review the legal descriptions.
3. Once the Assessor verifies the legal descriptions, bring your documents to the Community Development Office for drop off. The review by SCCDD will take two (2) business days to complete. Deeds will either be authorized or rejected.
4. The Community Development Department will review the deeds for:
   a. The words “Boundary Line Adjustment” must appear above or below the title of the deed.
   b. The following paragraph appears somewhere on the deed:

   The purpose of this deed is to affect a boundary line adjustment between adjoining parcels of land owned by Grantor and Grantee; it is not intended to create a
separate parcel, and is therefore exempt from the requirements of RCW 58.17 and the Skamania County Short Plat Ordinance. The property described in this deed cannot be segregated and sold without conforming to the State of Washington and Skamania County Subdivision laws.

c. If one or both of the parcels are partially or entirely within the National Scenic Area boundaries, a National Scenic Area (NSA) application must be submitted to the Community Development Department. The NSA review will be completed and a decision issued. This decision will provide a 20-day appeal period. When the 20-day appeal period has passed, the process will continue as below, following the same procedure as non-NSA boundary line adjustments.

d. Make sure the lots will meet the minimum lot size and dimensions for the zoning classification and meets the exemption requirements of Skamania County Code Title 17.

5. The Community Development Department will then sign off on the deeds. They will either be mailed to you or held for pick-up.
6. The deeds are then taken to the Assessor's Office for their signature/sign-off.
7. An excise tax form must be filed with the Treasurer's Office, and the fees paid. For the amount of the fee, call the Treasurer's Office at (509) 427-3760.
8. The deeds (and a survey, if it was prepared) are then recorded with the Auditor's Office.
