

CONSTRUCTION IN YOUR AREA
SMITH BECKON TRUCK ROUTE
MP. 0.26 to MP 1.33

Skamania County Public Works will be having a grind/paving project conducted on Smith Beckon Truck Route starting on October, 2018 with an anticipated finish of October, 2018.

Traffic through these Construction Zones will be constricted to a single lane during grinding and paving, traffic wishing not to be inconvenienced should use alternate routes as much as possible, to avoid possible delays due to construction traffic.

Paving will proceed as soon as grinding is completed and should only take a couple of days. Local traffic will be allowed through to reach their homes, we ask for your patience so that this project may proceed as smoothly, and safely as possible.

Questions and concerns on this project can be answered through the Skamania County Public Works Department.

509-427-3910

Thank You from your Public Works Department
