RE: Stabler Area Workshop

This memo is a supplement to the February 14, 2018, Staff Report included in your packet for the February 20, 2018, Workshop which was postponed. Please review that Staff Report prior to this meeting.

Included with this memo is Staff’s initial draft recommendation for rezoning of privately owned Unmapped parcels within the Stabler/Wind River study area. Again, please note that this is only an initial draft, as it has been made largely without property owner feedback which will be solicited at the scheduled workshop. This draft relies heavily on prior planning efforts by Skamania County, notably the 2008 rezone effort that was not completed. However, this does include changes intended to simplify zoning outcomes by avoiding split zoning where sensible and by better matching zoning to the existing uses.

Recommended changes from the 2008 draft zoning are outlined below:
